GreenTech USA: Pioneers in environmental engineering, HVAC services, and sustainable solutions, operating globally with expertise in water/ wastewater treatment, construction, Operation and maintenance.

Company Overview

GreenTech USA stands at the forefront of environmental engineering and general contracting, and is now broadening its services to include commercial HVAC. Renowned for its commitment to sustainability, innovation, and excellence, GreenTech specializes in designing, constructing, and maintaining water and wastewater treatment facilities, conducting environmental assessments, and providing HVAC services for US Government across the world. The company operates globally, with a presence in Afghanistan, Africa, and the Middle East, and maintains country offices in India, South Sudan, and Afghanistan

Our Mission

Green Tech aims to provide cutting-edge solutions and steadfast support to the US government in conflict-prone areas, addressing critical infrastructure needs. Our goal is to promote sustainable development and community well-being through expertise in green technology.

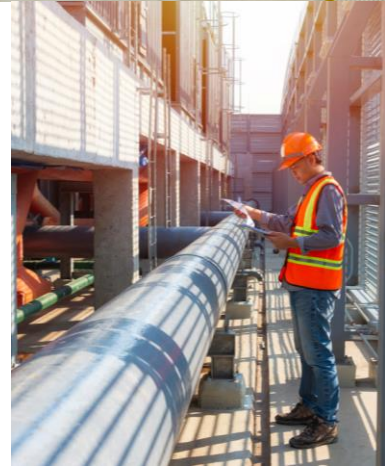

Our Vision

As a trusted partner to the US government, we provide efficient, sustainable, and innovative water and wastewater solutions. Our mission is to design, construct, and maintain state-of-the-art treatment facilities that exceed expectations and positively impact the communities we serve.

Our Specialty

- **Environmental Engineering:** Expertise in environmental assessments, impact studies, and pollution control.
- **Water and Wastewater Treatment:** Design, construction, operation, and maintenance of treatment plants.
- **Operation & Maintenance (O&M):** Ensuring the reliability of water and wastewater infrastructure.
- **General Contracting:** Efficient management of construction projects within budget and on time.
- **Commercial HVAC Services:** Installation, replacement, and maintenance services for commercial chillers and HVAC systems, focusing on energy efficiency and sustainability.

Commitment to Sustainability

GreenTech USA integrates eco-friendly technologies and sustainable practices across all operations, from HVAC services to water treatment processes, aiming to minimize environmental impact and contribute to a healthier planet.

Why Choose GreenTech?

- **Expertise:** Leveraging decades of experience in environmental engineering and construction.
- **Innovation:** Committed to the latest technologies and sustainable practices.
- **Customized Solutions:** Tailored services to meet client-specific needs, budget, and timelines.

For more information or to discuss how GreenTech USA can support your project, please contact us through our website, email, or by phone.

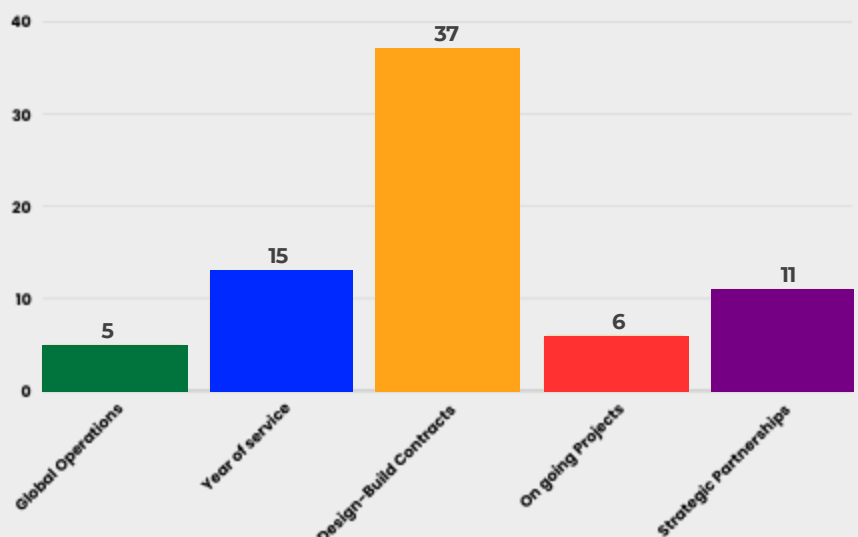

Integrity

GreenTech USA pioneers environmental engineering, contracting, and HVAC services globally, emphasizing sustainability and innovation.

Key Achievements

- **Global Reach:** Serving clients worldwide, especially in challenging environments.
- **Prime Contractor:** For USACE and DOS since 2009, executing over 30 design-build contracts in Afghanistan, an ongoing WWTB design-build contract in South Sudan with DOS-USAID, and a preventive maintenance contract for the WWTB in the US Consulate, Hyderabad, India.
- **Innovative Solutions:** Incorporating the latest technologies and sustainable practices in our projects.
- **Customized Solutions:** Tailoring services to meet the specific needs of each client.

Company Facts

Strategic Partnerships

At GreenTech USA LLC, we believe in the power of collaboration to deliver superior solutions in environmental engineering and construction. Our strategic partnerships with industry leaders are pivotal to our success, allowing us to leverage a wealth of shared knowledge, innovation, and expertise. Here is a snapshot of our esteemed clients :

Famer Group

Specializing in construction, real estate development, and infrastructure, Famer Group's reputation for excellence and progressive growth enhances our ability to execute projects with precision and deliver exceptional value to our clients.

Mason & Hanger

A dedicated partner specializing in architectural and engineering services, Mason & Hanger is synonymous with designing secure, mission-driven facilities. As a Day & Zimmermann Company, their historic commitment to building a more secure world is a cornerstone of our shared vision.

Our Clients

Discover the insights and offerings from our trusted vendors. GreenTech USA is privileged to collaborate with a distinguished roster of clients, including key U.S. government agencies such as the Department of Defense, the Department of State, USAID, and the US Army Corps of Engineers. These partnerships underscore our commitment to delivering cutting-edge green technology solutions that meet the rigorous demands of national security, international development, and infrastructure projects. Our collaboration with these esteemed clients reflects our dedication to excellence and our pivotal role in advancing sustainable practices across various sectors of government.

Empowered by these relationships, GreenTech USA LLC stands at the forefront of the industry, ready to deliver projects that meet the highest standards of quality, safety, and performance. Our partners share our ethos of innovation and excellence, and together, we are building a sustainable future for communities around the globe.
